

PATHWAYS *to* PHARMACY 2022

WHO:

Current high school sophomores, juniors, seniors

WHEN:

June 19 - June 23, 2022

WHERE:

Northeast Ohio Medical University
in Rootstown, Ohio

COST:

Overnight: \$400/person

Day camp: \$100/person

Diversity scholarships available

Pathways to Pharmacy is an immersive week-long summer camp designed exclusively for high school students. You will be introduced to the widely growing field of pharmacy and experience a medication's life cycle from research and development all the way to clinical application.

New in 2022: we are now offering both a day camp only or an overnight option! Both groups will be involved with on-campus activities while only the overnight group will take advantage of the off-campus activities which include kayaking, bubble soccer, an escape room and bowling.
