## *Sequential Intercept Mapping*

August 6-7, 2024

### Preble County Core Planning Team

| Name             | Position                | Agency   |
|------------------|-------------------------|--|
| Miranda Armstead | Rural Advocate          | Preble County Domestic Violence Shelter/Rape Crisis Center |
| Autumn Green     | Outreach Coordinator    | Preble County Mental Health & Recovery Board               |
| Eric Cecys       | Recovery Housing & Jail | Recovery & Wellness Center of Midwest Ohio                 |
| Deb Hater        | Court Liaison/CTP       | Recovery & Wellness Center of Midwest Ohio                 |
| Kassie Proffitt  | Court Administrator     | Preble County Juvenile/Probate Court                       |
| Amy Raynes       | Executive Director      | Preble County Mental Health & Recovery Board               |
| Regan Shisler    | Program Coordinator     | Thrive Therapeutics, LLC/My Neighbor's House               |

### Workshop Facilitators and Consultants

|              |                    |   |
|--------------|--------------------|---|
| Teri Gardner | Facilitator        | Retired, Ohio Department of Mental Health and Addiction Services    |
| Dan Peterca  | Facilitator        | Retired, Cuyahoga County Court of Common Pleas Probation Department |
| Ruth Simera  | Executive Director | Coordinating Centers of Excellence                                  |
| Emily Ribnik | Director           | Criminal Justice Coordinating Center of Excellence                  |

# Preble County, Ohio

## *Sequential Intercept Mapping*

### Introduction

The purpose of this report is to provide a summary of the *Sequential Intercept Mapping* (SIM) and *Taking Action for Change* workshops held in Preble County, Ohio, on August 7-8, 2024. The workshops were hosted at the Eaton First Church of God with Preble County coordination provided by Amy Raynes, Executive Director of the Preble County Mental Health & Recovery Board, and Kassie Profitt, Court Administrator of Preble County's Juvenile and Probate Court, along with a Preble County Planning Team comprised of representatives from behavioral health and criminal justice agencies and the community. This report includes:

- A brief review of the origins and background for the workshop
- A summary of the information gathered at the workshop
- A *sequential intercept map* as developed by the group during the workshop
- An action planning matrix as developed by the group
- Observations, comments, and recommendations to help Preble County achieve its goals

Recommendations contained in this report are based on information received prior to or during the *Sequential Intercept Mapping* workshops. Additional information is provided that may be relevant to future action planning.

### Background

Together, the Preble County Mental Health & Recovery Board and Preble County Probate Court requested the *Sequential Intercept Mapping* and *Taking Action for Change* workshops. The request was made to identify strengths and areas of opportunities for Preble County in responding to the overrepresentation of individuals with behavioral health needs in the justice system. The Sequential Intercept Mapping exercise was meant to aid Preble County with:

- Creation of a map indicating points of interface among all relevant Preble County systems
- Identification of resources, gaps, and barriers in the existing systems
- Development of a strategic action plan to promote progress in addressing the criminal justice diversion and treatment needs of adults with mental illness in contact with the criminal justice system

The participants in the workshop included 29 individuals representing multiple partner systems including mental health, substance use treatment, human services, corrections, individuals with lived experience and support/advocacy, law enforcement, and courts. A complete list of participants is available in the resources section of this document. Dan Peterca, Teri Gardner, and Ruth H. Simera from the Criminal Justice Coordinating Center of Excellence facilitated the workshop sessions.

### Values

Those present at the workshop expressed commitment to open, collaborative discussion regarding improving the cross-systems response for justice-involved individuals with mental illness and co-occurring disorders. Participants agreed that the following values and concepts were important components of their discussions and should remain central to their decision-making: *Hope, Choice,*

*Respect, Compassion, Abolishing Stigma, Using Person-First Language, Celebrating Diversity, and the belief that Recovery is Possible.* Participants added *Willingness to Take Perspective* and *Camaraderie* to the values.

## Objectives of the Sequential Intercept Mapping Exercise

The *Sequential Intercept Mapping* Exercise has three primary objectives:

1. Development of a comprehensive picture of how people with mental illness and co-occurring disorders flow through the Preble County criminal justice system along five distinct intercept points: Law Enforcement and Emergency Services, Initial Detention/Initial Court Hearings, Jails and Courts, Reentry, and Community Corrections/Community Support and what services and supports are available to help prevent criminal justice contact, i.e., Intercept 0 resources including crisis response, outpatient services, social service supports, community-based resources and evidenced-based treatment options.
2. Identification of gaps, resources, and opportunities at each intercept for individuals in the target population.
3. Development of priorities for activities designed to improve system and service level responses for individuals in the target population.

The Preble County Sequential Intercept Map created during the workshop can be found in this report on page 6.

## Keys to Success

In addition to the items below, communities are strongly encouraged to A) identify or develop agencies and/or individuals who are champions to the cause and can serve as **boundary spanners** – spanning the gap between systems, understanding and effectively representing the needs and concerns of individuals being served and of the multiple systems involved, and effectively assisting in articulating and reconciling different points of view, B) create early opportunities for **momentum** by addressing manageable action items early in the change process, developing measurable and reasonable action plans, and recognizing that change is necessary while resisting temptation to tackle global, pervasive problems; and C) utilize and implement **evidence-based or evidenced-informed practices** whenever possible and practical.

## Cross-Systems Partnerships; Task Force

Preble County collaborators and service providers, like those from most other Ohio counties, have been involved in many collaborative projects and relationships over time, e.g., Crisis Intervention Team, Preble County Stepping Up, and Multi-System Adult Collaboration group. Currently the Multi-System Adult (MSA)/QRT Collaborative roundtable meets monthly with the purpose of supporting those adults who access multiple services and either jails or hospitals, including requests for Access to Wellness Funds. This meeting was identified as an existing platform that brought together many of the participating individuals and entities needed to continue the action planning work of the SIM mapping. Updates to Action Plans/Priorities were added as a standing item to their monthly meeting agenda.

## Individual with Lived Experience Involvement

The Preble County Planning Team did include an individual with lived experience/peer support. The SIM group is strongly encouraged to continue to solicit participation from additional community members and individuals with lived experience; ideally each work group/committee will include lived experience, family and/or advocate representation.

## Representation from Key Decision Makers; Community Investment

- The group composition provided reasonable cross-system representation with key decision makers present for the court system, jail, law enforcement, hospitals, mental health system and other community resources.
- Key partners that were missing at the workshops: dispatch

## Data Collection

- The Preble County Planning Team compiled the following items to be reviewed by facilitators in preparation for the workshops and to be included in the workshop manual:
  - Completed Community Collaboration Questionnaire
  - Preble County Jail Data for January 1, 2023 – December 31, 2023
- Additional data provided by the Criminal Justice Coordinating Center of Excellence included:
  - Preble County Crisis Intervention Team Cumulative Training Report, with Ohio CIT Map – status of Crisis Intervention Team Development in Ohio, March 2023
  - Preble County CIT Officers Roster Project Summary Report, March 2023

## Recommendations

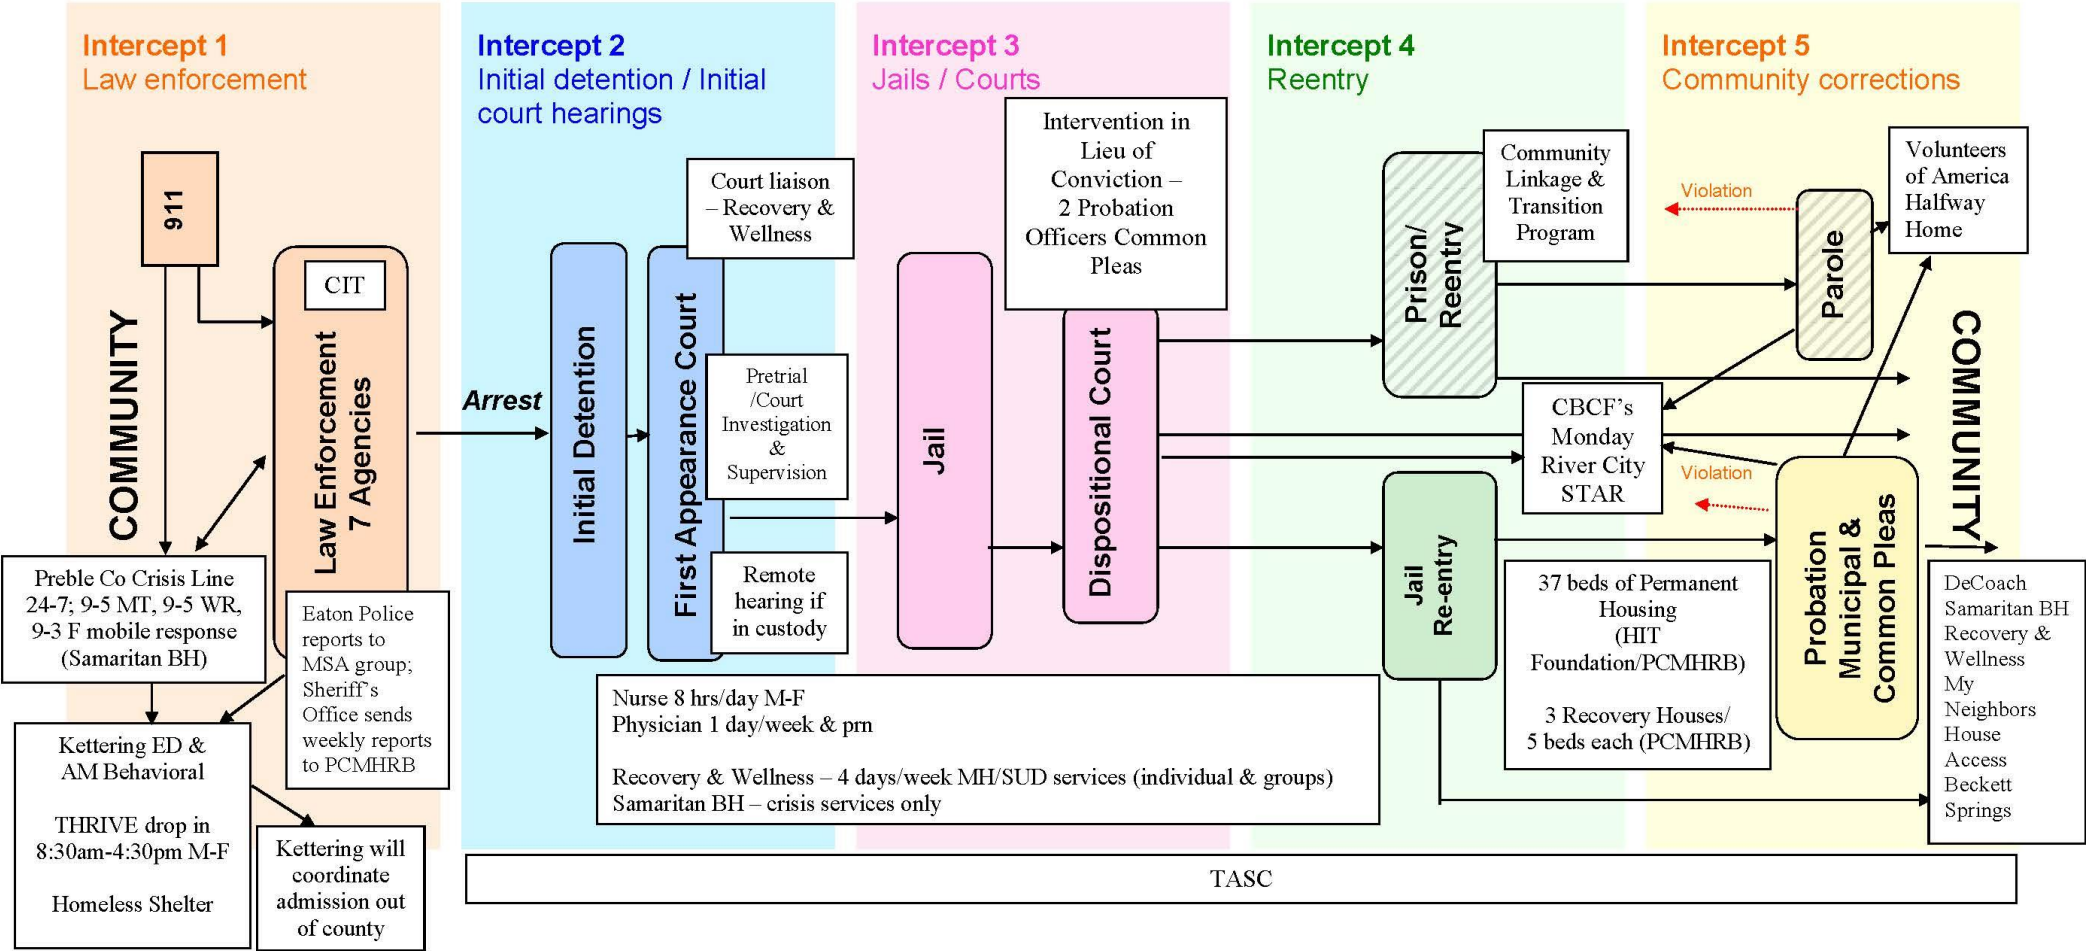

- At all stages of the Sequential Intercept Model, seek opportunities to utilize and share data and information across systems, both public and private, that will aid in identifying and documenting the involvement of people with severe mental illness and often co-occurring disorders in the Preble County criminal justice system and promoting use of alternatives.
- Be strategic in collecting data. Identify and clearly define across systems the population being addressed so that a specific data set can be tracked to gauge improvement and inform the mental health and criminal justice systems of needs within the systems and needs of persons being served.
- From this work, continue to build on the success of the multi-disciplinary monthly meeting by adding key community partners that are missing, including additional persons with lived experience.
- Outside of CIT, there do not appear to be opportunities for immersion training, i.e., cross-training or dedicated time immersed in other services or systems. Such opportunities could enhance coordination and cross-system understanding.
- Document procedures and protocols. There are many good relationships in place and good communication that need to be memorialized for future sustainability.

## Sequential Intercepts for Change: Criminal Justice - Mental Health Partnerships

## Preble County Sequential Intercept Map Narrative

The *Sequential Intercept Mapping* exercise is based on the Sequential Intercept Model developed by Mark Munetz, MD and Patty Griffin, PhD in conjunction with the National GAINS Center (Munetz & Griffin, 2006). During the exercise, participants were guided to identify gaps in services, resources, and opportunities at each of the five distinct intercept points and as part of the discussion of Intercept 0.

This narrative reflects information gathered during the *Sequential Intercept Mapping* Exercise. It provides a description of Preble County activities at each intercept point, as well as gaps and opportunities identified at each point. This narrative may be used as a reference in reviewing the Preble County Sequential Intercept Map. The cross-systems Preble County Planning Team may choose to revise or expand information gathered in the activity.

The gaps and opportunities identified in this report are the result of “brainstorming” during the workshop and include a broad range of input from workshop participants. These points reflect a variety of stakeholder opinions and are therefore subjective rather than a majority consensus. In some instances, the Preble County task force may need to seek further information from participants to clarify the context or scope of the comments.

### Intercept 0: Ultimate Intercept

The following represents evidence based or evidence-informed practices (EBP) and services that were highlighted during discussion of the Ultimate Intercept. This list is not meant to be an exhaustive or comprehensive roster of all EBPs and services available in Preble County.

- Success Program (K-12)
  - Originally developed in Butler County; Educational Services Center takes referrals for youth identified by teachers and families in need
  - Police Department collaboration (Juvenile Court, Preble County Mental Health & Recovery Board, Jobs & Family Services, Schools)
  - All schools have a liaison (get outcomes reports)
    - The work of the liaison has helped to reduce Children’s Services referrals and cases
- Mobile Response Stabilization Services (MRSS) through Samaritan Behavioral Health
  - 24/7 hotline; mobile response during business hours
- Mobile Crisis through Samaritan Behavioral Health
  - During business hours
- OhioRise
- SROs in all school districts (5)
- Cognitive Behavioral Therapy (CBT)
  - Trauma Focused Cognitive Behavioral Therapy (TF-CBT)
  - Cognitive Behavioral Therapy for Psychosis (CBT-P) at Samaritan Behavioral Health
- Dialectical Behavioral Therapy (DBT)
- Eye Movement Desensitization and Reprocessing (EMDR)
- Medication Assisted Treatment (MAT)
- Mental Health First Aid (MHFA)
- Motivational Interviewing
- Peer Support Specialists
- Treatment Alternatives to Street Crime (TASC)
- Quick Response Team (QRT)
- Substance Abuse Prevention Partnership (SAPP) of Preble County
- Multi-System Adult (MSA)/QRT Collaborative
- Question Persuade Refer (QPR)
- My Neighbor’s House run by Thrive Therapeutics LLC
  - Drop-in style center; provide contact information for transportation
  - Monday – Friday 8:30am-4:30pm

- Certified Peer Recovery Supporters available

### **Intercept 0 Gaps**

- 24/7 Mobile Response youth & adult
  - Use law enforcement to respond to mobile needs after hours
- JFS calls for juveniles/families in crisis
  - Family support during crisis/traumatic events, including caregivers
- Alternative to general hospital emergency department for behavioral health
- Care for higher acuity persons with serious and persistent mental illness (SPMI)
  - Group homes
- Respite care
- Earlier referrals to Probate Court for civil intervention
- Coordination with out of county hospitals

### **Intercept 0 Opportunities**

- Handle with Care – training has occurred
- More consistent use of MRSS by law enforcement
- Residential stabilization regional project in Warren County (respite & crisis stepdown)
- JFS Start Program – parents with addiction/substance use issues – maintain custody with supports
  - Need peer and other supports

### **Recommendations**

- Explore how to intervene earlier for the juveniles/families in effort to move away from crisis. This includes the possibility to increase behavioral health supports within Job & Family Services and /or within homes to support youth and families.
- Visit with other communities to learn how they are working with families.
- Keep exploring ways to bring in a Case Manager, thinking creatively and considering unconventional approaches.
- Convene core entities, such as Samaritan Behavioral Health, ADAMH, and Summit Hospital to identify and discuss available data that can help inform system needs.

## Intercept I: Law Enforcement / Emergency Services

In Preble County, law enforcement is accomplished by the Preble County Sheriff's Office and law enforcement agencies in various towns or cities. Law enforcement options for responding to people with mental illness include advise, summons, arrest, transport to county jail, referral to provider agencies, involuntary civil commitment (pink slip), referral to hospital emergency departments (both in and out of county), or a combination of these options.

### Dispatch / 9-1-1

- All law enforcement dispatch and 911 calls come to the Preble County Sheriff's Office dispatch center.
  - Public Safety Telecommunicators (PSTs) may send law enforcement for response or call the Preble County Crisis Line to respond (take call or dispatch mobile response).

### Law Enforcement and Crisis Intervention Team model

According to the 2022 Ohio Peace Officer Training Commission (OPOTC) County Agency Report Preble County has 7 law enforcement agencies: Camden Police Department, Eaton Police Department, Gratis Police Department, Lewisburg Police Department, New Paris Police Department, West Alexandria Police Department, and the Preble County Sheriff's Office.

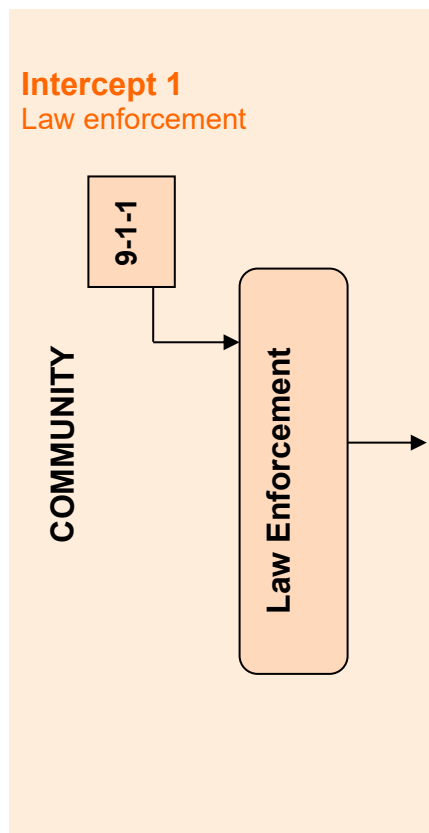

- The Preble County Crisis Intervention Team (CIT) Program held its first CIT Patrol Officer Training Course in 2012, with the latest training on record held in 2024. Four of the seven law enforcement agencies in the county have participated in CIT Patrol Officer Training Courses, which is a 32-hour course composed of lectures, interactions with individuals with lived experience and representatives from mental health service providers, and scenario-based roleplays including practice of de-escalation skills. Preble County holds CIT Patrol Officer Training Courses every other year. The Preble County CIT Program provides CIT Refresher Training during the years that a CIT Patrol Officer Training Course is not held. At this time, the CIT Program does not provide Advanced CIT Training or any Role-Specific CIT Training Courses; however, in the past other roles have been invited to attend the CIT Patrol Officer Training Course.
- The CIT Program's Coordinator is Autumn Green from the Preble County Mental Health & Recovery Board. The Preble County CIT Program completed a CIT Peer Review in 2020.
- Law enforcement officers have discretion to take individuals with mental health needs to Kettering Hospital Emergency Department, AM Behavioral Health Hospital, Samaritan Behavioral Health or a My Neighbor's House (M-F 8:30-4:30pm) depending on the individual's needs and best fit of resources and services. Law enforcement may also transport the client to their mental health provider if the agency is open.
  - Eaton Police Department also provides a copy of their police reports for mental health and/or development disability (DD) calls for the MSA/QRT Roundtable meetings.
  - Police reports are additionally sent to the Preble County Mental Health & Recovery Board, Recovery and Wellness, Samaritan Behavioral Health, Preble County Board of Developmental Disabilities, and court contacts for follow-up after interactions with law enforcement. It is informally understood that Samaritan Behavioral Health will follow up on the referrals, although sometimes Recovery Wellness will make contact if it is an existing client of the agency.

### Crisis Services

- Hotline/24-hour call center
- Mobile crisis
- Crisis stabilization
- Crisis residential
- Peer respite/sobering support

### Hospitals / Emergency Rooms / Inpatient Psychiatric Centers

- Kettering Hospital Emergency Department

- May assess to determine hospital level of care and may admit to AM Behavioral Health Hospital, Kettering's Behavioral Health Unit or Beckett Springs
- There are no psychiatric beds within Preble County.

### **Detoxification**

- Detox available at Beckett Springs, DeCoach, Access and AM Behavioral Health Hospital

### **Intercept I Gaps**

- ▣ 911/PST not at CIT
- ▣ Expand CIT role specific training courses for PST and Corrections Officers
- ▣ Clarify mental health response to CIT encounters
- ▣ After-hours access to alternative response
- ▣ Outlying law enforcement agencies disconnected from info/communication/knowledge of systems
- ▣ Respite
- ▣ Mental health supports at shelter

### **Intercept I Opportunities**

- ▣ Cross training hotline & 911
- ▣ Model CIT contact sheet and process that can be adopted
- ▣ Meet with pertinent agencies and entities (law enforcement, all agencies with health officers, hospital emergency departments, and EMS) to develop clear protocols for transporting individuals on pink slip.

### **Recommendations**

- ▣ Work to provide 911 operators/public safety telecommunicators/call takers CIT training
- ▣ Develop a process so all law enforcement agencies are informed of services/supports
- ▣ Clarify in writing the mental health follow up process for CIT encounters, i.e. written procedures or MOU

## Intercept II: (*Following Arrest*) Initial Detention / Initial Court Hearing

### Initial Detention

- Any individual arrested in Preble County is brought to and detained at the Preble County Jail (PCJ). The jail's automated information system is Central Square Public with the Zuercher Suite software. Jail staff has sent an inquiry to the system's vendor to inquire about a process to flag mental health cases within the system.
  - Individual crisis-based information, such as a detainee/inmate experiencing active psychosis, is the only information from the information system shared with the court.
- At booking, general intake and screening is completed which includes questions about safety, suicide, mental health issues, and substance use. After booking, individuals are placed in holding cells until they are transitioned to a pod.
- Staff within the PCJ can refer a detainee/inmate to the nurse at any time for mental and/or medical concerns. Health assessments by the nurse are completed between day 11-13 of their stay. The nurse is available Monday-Friday. The nurse is employed by the jail.
- Staff may also refer a detainee/inmate to see Recovery & Wellness. Recovery & Wellness has hours at the jail Monday-Friday, can be faxed the intake screening, and will also be notified to see anyone booked during the weekend with a mental health concern.
- A physician is at the jail one day a week and available 24-7 by phone for both consultations and to come to the jail for emergencies. The physician is a local primary care physician on contract for these services at the jail.
- If a hospital referral is needed, individuals are typically transported to Kettering Health; however, AM Behavioral Health may also be utilized but typically only after staff check in with prosecutor's office.

### Intercept 2 Initial detention / Initial court hearings

### Arraignment and Initial Hearing

- Arraignment
  - Arraignment is held on Monday mornings for those not in the jail.
  - Arraignment for those in jail is typically completed with 48 hours. These hearings are via video and are typically held at 2pm. Individuals booked during the weekend may wait up to 72 hours for their hearing. On average, two hearings are held per day Monday-Friday.
    - A Recovery & Wellness liaison attends hearings to identify individuals with potential mental health needs and to provide appropriate referrals.
  - Common Pleas Court holds Grand Jury hearings on the 1<sup>st</sup> Monday of each month. The hearings are via video if the individual is in custody. A Corrections Officer may be present with the individual during the hearing. Common Pleas Court does conduct felony bond investigations as part of its pre-trial services.
  - Municipal Court will do pre-trial review and screening as needed based on requests by the judge. The probation officer will also do some pre-trial services. Only occasionally will Municipal Court detainees/inmates retain counsel. For those that want counsel, attorney appointments are conducted weekly on Tuesdays. Municipal Court utilizes 'own recognizance' (OR) bonds, which will sometimes include conditions of a mental health assessment. Typically, mental health assessment referrals are sent to Recovery & Wellness. Other conditions can include no contact and forced stay-away for domestic violence charges.
  - There is no Public Defender office and only a small list of appointed counsel (6 attorneys). There are no specialized attorneys for mental health caseloads, nor is there specialized training offered to assist with such caseloads. It was stated by attendees that the current attorneys do not appear to have interest nor special inclination for training to take on a specialized mental health caseload.
  - While competency issues may be raised at arraignment, it is more often raised during the initial hearing.

- Initial Hearing
  - Initial Hearings are done on Tuesdays. At this time the judge may appoint counsel.
  - A competency hearing may be requested after the initial hearing so that court appointed attorneys are able to be involved.
  - The Grand Jury meets once a month to hear cases.
  - Common Pleas does have many cases bound over from Municipal Court. Direct indictment is not highly utilized.

### **Veterans**

- Veteran Services will attempt to attend arraignments and initial hearings if they are aware of the detainee/inmate.
- Jail staff do ask about military service background during booking and will make referrals to Veteran Services.
- Recovery & Wellness will also assist with linkage to the local Veterans Justice Outreach Program (VJO). The VJO typically respond after an initial hearing and serve as case managers to support linkage to other needed services.

### **Intercept II – Identified Gaps**

- Number of court appointed attorneys for clients (shortage)
  - Few are trained to work with people that have mental health concerns
- Data collection and reporting/sharing
- Jail protocols to address MAT when an individual is booked into jail and already on prescribed MAT

### **Intercept II – Identified Opportunities**

- How to identify mental health cases within the jail records management system
- Formalize outreach with VJO to support all systems
- Use of screening tool at booking can give baseline estimates/data on individuals with mental illness/substance use coming into the jail

### **Recommendations**

- Implement a validated screening tool within the jail to identify people earlier and collect BH data
- Explore how counties similar to Preble County collect data and have used this information to improve support/services for people with SMI and SUDs
- Utilize ORAS Pre-Trial Risk Assessment Instrument

## Intercept III: Jails / Courts

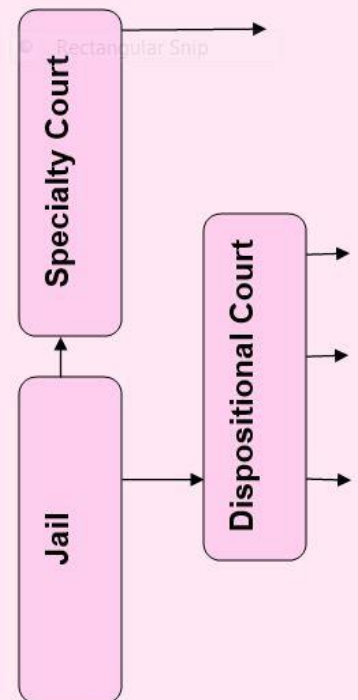

### Jail

- The Preble County Jail has a capacity of 70, with a current average daily population of 30.
- Daily bookings average: 2-3
  - From 8/6/2023 – 2/6/2024 (6 months), a total of 341 bookings occurred.
  - The daily cost of a detainee/inmate in the jail is \$60-\$65.
- Daily population average for persons with mental illness: 9
  - This average was determined by reviewing the intake questionnaires from the previous 7 months.
- Daily booking average for persons with mental illness: 0.5-1
- The jail utilizes Central Square Public with the Zuercher Suite software but is currently unable to flag mental health cases.
- Corrections officers and jail staff do not receive specialized training regarding mental illness nor substance use.
- Medical services are available one day a week with a contracted physician and Monday-Friday with a full-time nurse.
  - Medical reviews can take up to 14 days for completion but will be conducted earlier if the nurse is alerted to concerns/needs by jail staff or Recovery & Wellness.
  - Long-term injectable medications are not prescribed at the jail. Additionally, neither Clozapine nor Medication Assisted Treatment (MAT) are available. The nurse indicated that inmates will at times come into the jail using street purchased medications for MAT but are not actually prescribed these through a provider.
  - The jail does routinely take advantage of funding available via the Ohio Department of Mental Health and Addiction Services (OhioMHAS) to fund medications for jail detainees/inmates.
- The Preble County Jail does not have a psychiatric pod. Individuals with mental illness or substance use needs are housed in general population. Summit Behavioral Healthcare and AM Behavioral Health are utilized for hospitalizations as needed.
- Programs and services include:
  - Services with Recovery & Wellness for mental health needs can be requested via jail kiosks
  - Mental health group once a week for an hour (separate men and women)
  - Seeking Safety – Weekly substance use group (women only), which has struggled with low attendance
  - Samaritan Behavioral Health for mental health crisis assessments
  - 12 Step meetings/AA (men only) held on Mondays
  - Faith based programs come to the jail to provide church services and one-on-one pastor visits
  - Peer specialists and peer support services are not currently in the jail; however, this has been under consideration by staff

### Court

- Municipal Court (1 judge)
  - Prosecutor's Diversion Program consists of first-time offenders often being sanctioned with 25 hours of community service instead of incarceration.
- Common Pleas Court (1 judge)
  - Diversion Program and Intervention In Lieu of Convention (ILC) is utilized frequently. Currently there are two supervisors overseeing the 105 ILC cases.
- There are liaisons from the local mental health system working within both courts.
  - Recovery & Wellness provides mental health assessments, case management, linkage to services, and works to address barriers to successful treatment engagement.

## Intercept 3 Jails / Courts

- Two TASC staff members work with both courts to provide substance use assessments and case management services. These services are available both pre- and post-sentencing. Over the past 6 months, 73 individuals have worked with the liaisons.
- Neither court utilizes forensic or certified peer specialists.

### **Specialty Courts**

- There are no formal specialty courts in Preble County.

### **Intercept III – Identified Gaps**

- Jail programs
  - Lack of attendance and motivation to women's/men's jail treatment group
  - Peer support
- Formal process to create/communicate to link to community resources
- Validated screening tool for mental health/substance use
- Consider role of peers in the jail by looking at evidence

### **Intercept III – Identified Opportunities**

- Workgroup to discuss MAT protocols
- Workgroup to discuss jail programs

### **Recommendations**

- Implement specialized mental health training for jail staff and Correction Officers.
- Research options for jail-based programming especially for individuals with SMI and SUDs.
- Reach out to the Recovery Community for support with AA meetings for women and additional meetings for men.
- Examine how other counties are using Peer Support Specialists and where peers may work best to support your county.

## Intercept IV: Prisons / Reentry

### Prison

- The Community Transition Program (CTP) and Community Linkage Program of the Ohio Department of Mental Health and Addiction Services (Now Ohio Department of Behavioral Health) offers voluntary referrals to community substance use disorder treatment and mental health treatment, respectively, for those individuals diagnosed with substance use disorders and mental illness. The packets prepared by OhioMHAS are provided to Recovery & Wellness. Participation in the program is above 50% for those eligible. Upon release, those involved with the program are provided with a two-week medication prescription.

|               |                |           |                   |
|---------------|----------------|-----------|-------------------|
| ○ MH clients: | 0 participated | 0 refused | Total: 0          |
| ○ MH/CTP:     | 1 participated | 0 refused | Total: 1          |
| ○ CTP:        | 3 participated | 3 refused | Total: 6          |
| ○ Totals:     | 4 participated | 3 refused | Total eligible: 7 |

- Recovery & Wellness previously did prison visits after referrals received. Prison visits ceased during the Covid pandemic and have not restarted. It was noted by participants that referrals have been coming either right before or, at times, even after an individual is released from prison. Recovery & Wellness tries to set up an appointment on the same day as release to have early contact with the individual upon their return to the community. It was also noted by attendees that since this program has been in Preble County, only two individuals have gone back to prison and then back into the program.
- Housing and hotel stay assistance is available:
  - Housing needs are referred to Home Is The (H.I.T.) Foundation
  - Hotel stays are paid for by the Preble County Mental Health & Recovery Board with Community Transition Provider (CPT) funds
- Adult Parole Authority (APA) utilizes a local office within Recovery & Wellness. There is a good relationship between the two offices. APA visits the jail and has contacts with mental health service providers and other resources in the county.

### Jail

- Does not provide medications nor prescriptions of any kind for inmates upon release.
- Jail is interested in having more release planning for those with severe mental illness.
- Housing options are available in Preble County:
  - Homeless Shelter assists with rapid rehousing, paying deposits, and other supportive services.
  - Permanent Supported Housing:
    - Samaritan Behavioral Health and the Preble County Mental Health & Recovery Board have 37 beds.
    - H.I.T. Foundation has permanent support housing (PSH) voucher program funded by the Preble County Mental Health & Recovery Board. Case management services for the program are through Samaritan Behavioral Health.
      - At the time of the workshop no more vouchers for the year were available.
  - Recovery Housing is open to both males and females. Children are also allowed. Each Recovery Housing site can house up to 5 people.

### Veterans

- There are no in-reach services with the Veterans Justice Outreach program (VJO).

## Intercept 4 Reentry

## **Intercept IV – Identified Gaps**

- Community Linkage Program (CTP)
  - Access in-person or remote prior to release
  - Resources access
  - Contact info/prison info
  - Late arrival of packages
  - 18 months in CTP is often not enough time
- Jail meds/RX upon release
- Expand emergency, recovery and supportive housing capacity
- Identifying the people who qualify for CTP or mental health linkage but chose not to participate

## **Intercept IV – Identified Opportunities**

- Reentry Coalition reach out to
- New VA position/staff to expand services and screening instruments to jail
- Use of Veterans Re-Entry Search Services (VRSS) to identify those with military experience

## **Recommendations**

- Examine how other counties are using Peer Support Specialist and where peers may work best to support your county (cross-intercepts).
- Discuss opportunities to assist the Jail with release planning and supports (including access to medications).
- Contact VJO and other community stakeholders to identify more options for working with people upon release.
- Continue to address the coordination and communication needs for CTP

## Intercept V: Community Corrections / Community Support

### Probation

- Municipal Court
  - 1 Probation Officer for 350 individuals
  - Of the 350 individuals, 10 are Pretrial and 125 are actively reporting
- Common Pleas Court
  - 4 probation officers, including the Chief Probation Officer
  - Caseloads are 40-50 individuals
  - Chief Probation Officer has over 200 cases under supervision
- Both probation departments refer to local agencies for specialized care

### Parole

- CBCFs utilized include MonDay, STARR, and River City.

### Community Supports

- DeCoach has walk-in services for substance use and mental health treatment
- Volunteers of America (VOA) Halfway House utilized for transitional housing and other justice reentry programming, such as work-release, day reporting, etc.
- My Neighbor's House (Thrive Therapeutics) also takes referrals from probation and parole. It was noted that they are helpful with setting up appointments with other resources and services.
- Detox available at Beckett Springs, DeCoach, Access and AM Behavioral Health Hospital
- JFS/OhioMeansJobs program currently under revision for working with this population.
- My Neighbor's House provides supportive services, but none for employment.
- Transportation services:
  - Preble County Mental Health & Recovery Board contracts with Miami Valley Community Action Partnerships to provide transportation for county residents to local provider agencies.
  - CareSource, TASC and pay for transportation to local providers.
  - Council on Aging, which is in the process of rebranding itself to Preble Transit, will provide transportation to individuals 60 years old and over.
  - Catholic Social Services has a volunteer driver program.
  - Transit in the county is limited to inside the city, so transportation to other areas of the county is challenging.

### Intercept 5 Community corrections

### Intercept V – Identified Gaps

- Probation (Municipal and Common Pleas) have not received mental health training/lack of specialized training for probation officers
- Transportation – staffing, resources and policies

### Intercept V – Identified Opportunities

- Home health care possible
- Training opportunities through the Ohio Chief Probation Officers Association, Mental Health First Aid, and CIT would be appropriate trainings to consider.

### Recommendations

- Implement specialized mental health training for jail staff and Correction Officers.
- Examine how other counties are using Peer Support Specialist and where peers may work best to support your county (cross-intercepts).
- Follow-up with JFS/OhioMeansJobs to determine if they have in place resources for working with individuals with SMI and SUDs.

- Arrange for Probation Officers to participate in mental health and specialized training to support individuals with SMI and SUDs. Check with state associations for affordable training opportunities as well as the local behavioral health providers.
- Prioritize the gaps related to transportation and commit to working on one or two.

# Priorities for Change

Preble County,  
Ohio

## Preble County Priorities

Upon completion of the *Sequential Intercept Mapping*, the assembled partners reviewed identified gaps and opportunities across the intercepts and then proposed priorities for collaboration in the future. After discussion, each participant voted for their top four priorities.

Listed below are the results of the voting and the priorities ranked in order of voting preference, along with issues or information associated with each priority as brainstormed by the large group which all agreed need to be considered by each sub-committee.

### Top Priorities for Change

1. Alternative Response to Hospital Emergency for Behavioral Health
2. Enhancement to CTP Program
3. Coordination with Out of County Hospitals
4. Enhancing Jail Programs
5. 24/7 Mobile Response

### Other Priorities – items receiving one or more votes during the prioritization process

- Care for higher acuity SPMI (Intercept 0, 2 votes)
- Respite care (Intercept 0, 2 votes)
- Earlier referrals to Probate Court for civil intervention (Intercept 0, 1 vote)
- Outlying law enforcement agencies disconnected from info/communication/knowledge of systems (Intercept I, 1 vote)
- Mental health supports at shelter (Intercept I, 1 vote)
- Number of court appointed attorneys for clients (shortage) (Intercept II, 1 vote)
- Formal process to create/communicate to link community resources (Intercept III, 2 votes)
- Jail meds/Rx upon release (Intercept IV, 3 votes)
- Expand emergency, recovery and supportive housing capacity (Intercept IV, 1 vote)
- Transportation – staffing, resources and policies (Intercept V, 3 votes)

### Parking Lot Issues

- None identified

Next Meeting Date: August 14, 2024 (existing MSA Meeting)

## **Appendix**

## Appendix A

| <b>JAIL BOOKINGS</b><br><i>Please report most recent data available (12-36 months) and use a consistent time range throughout the report.</i>  |  |
|--|--|
| <b>Person Completing Form</b> (name/title) <u>Major Andrew J. Blawie</u>   |  |
| Time period being reported (identify a recent six-month to one-year period) <u>8/06/2023-02/06/2024</u>  |  |
| What is the rated capacity of the jail?  | (insert number)<br>70  |
| What is the average daily total population of the jail?  | 30   |
| What is the average number of total daily bookings?  | 2 to 3   |
| What type of automated system is used to collect Jail Booking, classification, health and release information?   | Central Square Public/<br>Zuercher Sweet   |
| <b>Based on the total jail population</b> for the time range being reported, please provide the number for each classification of inmate below:<br><i>(If unable to provide objective data on booking types, please provide estimated average percentage for each booking)</i> |  |
| Pretrial Misdemeanor   | 60%  |
| Pretrial Felony  | 30%  |
| Probation Violation  | 10%  |
| Sentenced local  | 30%  |
| Sentenced awaiting transport   | 30%  |
| Other (specify)  | 40%  |
| Is there a separate facility or unit for mental health? If not, where are persons with mental illness housed?  | No they are housed with the general population.<br>We use Summit and AMBH for acute needs.<br><br><div style="text-align: center; margin-top: 10px;"> <i>341 total Bookings for that period</i> </div> |
| <i>The following section asks about people who were identified as having mental health issues for the timeframe being reported.</i>  |  |
| How many people, total, are identified as having a mental illness?   | This is not track by Zuercher Sweet  |
| How many people identified as having a mental illness were identified by jail booking staff?   | This would change day to day, Jail Staff/ medical staff are the most reliant source of identification.   |
| How many people identified as having a mental illness were identified while incarcerated (by corrections officers, health staff or others)   |  |
| Is a specific screening tool mechanism used to identify individuals with mental illness? If yes, please name:  | Yes / No   |
| Does your Booking/Automated system allow the Jail to identify or flag defendants with Mental Illness for future booking information?   | No<br>A questionnaire form is completed with all new bookings and it does identify individuals with MH needs.  |
| What is the average daily population of persons with mental illness?   | 9  |
| What is the average number of daily bookings of people with mental illness?  | .5 to 1  |

|   |   |
|---|---|
| What percentage of the pretrial population represents persons with mental illness?  |   |
| What percentage of the sentenced population represents persons with mental illness?   |   |
| <b>CROSS TABULATION OF MULTI-SYSTEM DATA</b>  |   |
| <i>For the entire population of persons booked into jail during the identified time range (open or closed cases):</i>   |   |
| Is Jail Booking information shared on a regular basis with public funded Mental Health, Substance Use Treatment or Developmental Disability Agencies?<br>If so, how?  | Yes Information is shared with a few MH and SUD treatment providers   |
| How many people were known to the publicly funded mental health system?   |   |
| How many people accessed acute crisis services in the jail during the specified reporting period?   | We have had one at AMBH and two waiting for summit this month.  |
| How many people were known to the publicly funded substance use treatment system?   |   |
| How many people were known to the Developmental Disabilities system?  |   |
| <b>ADDITIONAL JAIL/OFFENSE-RELATED INFORMATION</b>  |   |
| For those who are identified as <b>persons with mental illness</b> or co-occurring substance use disorder or developmental disabilities (by jail, other criminal justice, or treatment systems) during the reported time range, what are the nature of the charges? |   |
| Misdemeanors  |   |
| Felonies  |   |
| Violent Behavior  |   |
| Violations of Probation   |   |
| Frequency - How many arrests / bookings per person? (average)   |   |
| Length of stay in the jail for each episode of incarceration (average)  |   |
| <b>DISCHARGE / REENTRY of individuals with mental illness or co-occurring disorders:</b>  |   |
| How many people with mental illness or co-occurring disorders left the jail with financial benefits or entitlements in place?   |   |
| How many people with mental illness or co-occurring disorders left the jail with a shelter as the identified residence?   |   |
| How many people with mental illness or co-occurring disorders had no known residence?   | A current address is collected at release. But this is not tracked.   |
| How many people with mental illness or co-occurring disorders left the jail with an appointment at a mental health or other treatment service?  | Clients that have been identified and provided with services are provided with apt from the provider when release date is known prior to the release. |
| How many people with mental illness or co-occurring disorders had contact with a helping professional from the community to facilitate reentry?   | Not tracked by jail. But all individual in  |

|  |                                  |
|--|----------------------------------|
|  | SUD group and<br>with MH serves. |
|--|----------------------------------|

## Community Collaboration Questionnaire

Effective and efficient services for people with mental illness and co-occurring substance use disorders in the justice system require meaningful cross-system collaboration. The *Community Collaboration Questionnaire* provides the CJCCoE with background information about your community's experience in collaborating across systems. It is recommended that one questionnaire be completed in consultation with all of the key stakeholders.

Please note that it is preferable not to have separate questionnaires filled out by various key stakeholders.

**Note: We have added an addendum to gather information on the impact of the COVID-19 pandemic as it relates to Sequential Intercept Mapping.**

This information helps prepare the CJCCoE for providing the best direction during the training about the points of intervention most useful in your community. This document can be filled in and returned by way of email to [rsimera@neomed.edu](mailto:rsimera@neomed.edu)

|                                   |                           |   |
|-----------------------------------|---------------------------|---|
| <b>Community: Preble County</b>   |                           |   |
| <b>Contact Person: Amy Raynes</b> | <b>Phone 937.456.6827</b> | <b>Email <a href="mailto:amy.raynes@pcmhrb.org">amy.raynes@pcmhrb.org</a></b> |

| <b>Please check the appropriate box for each and provide descriptions as necessary.</b> |  | <b>YES</b> | <b>NO</b> |
|---|--|------------|-----------|
| 1   | Has your community begun to collaborate in providing services/working with people with mental illness and co-occurring disorders in the criminal justice system?   | X          |           |
| 2   | Does your community have a cross-system collaborative team or task force?<br><i>If yes, please attach the membership list by agency and/or title, listing mental health providers, criminal justice services, substance abuse services, consumers, family members, elected officials and others.</i> | X          |           |
| 3   | Does your community provide for cross-training of mental health, substance abuse, criminal justice and other providers?<br><i>If yes, please list recent programs: Crisis Intervention Team Training, Mental Health First Aid, QPR</i>   | X          |           |
| 4   | Does your community have resources identified to work with people with mental illness and co-occurring disorders in the criminal justice system?<br><i>Please describe: Jail MH, TASC program and a court liaison</i>  | X          |           |
| 5   | Do agencies have dedicated staff or staff time to work with the criminal justice/mental health population?<br><i>Please describe: Jail MH, TASC and Court Liaison</i>  | X          |           |
| 6   | Does your community gather data about persons with mental illness and co-occurring substance use disorders involved with the criminal justice system?<br><i>Please describe:</i>   |            | X         |

| Please check the appropriate box for each and provide descriptions as necessary. |  | YES | NO |
|--|--|-----|----|
| 7  | Does your community have one or more boundary spanners (individuals whose identified role is to link the criminal justice and mental health systems)?<br><i>Please describe the position and the person(s): Deb Hater, RWC, Court Liaison, Eric Cecys, RWC, Jail Mental Health and Austin Nickell, RWC, TASC</i> | X   |    |
| 8  | Does your community have mechanisms, such as MOUs or other agreements, to facilitate services, facilitate communication or enhance safety across agencies or systems?<br><i>Please describe or if possible, provide copies of MOUs: MHRB and provider contracts for services.</i>                                | X   |    |
| 9  | Are there any local agencies that have not participated in collaboration efforts?<br><i>Please describe: All local agencies participate in our MSA meetings.</i>   |     | X  |
| 10   | Does your community have any jail or court diversion programs at this time?<br><i>Please describe: ILC and TASC programs</i>   | X   |    |
| 11   | Does your community have a mental health, drug or other specialty court?<br><i>Please describe: Not officially</i>   |     | X  |
| 12   | Does your community have a mechanism (such as an MOU) to facilitate partnerships with probation, parole or law enforcement?<br><i>Please describe or if possible, provide copies of MOUs.</i>  |     | X  |
| 13   | Have screening or assessment procedures been instituted in the mental health, substance abuse and criminal justice systems to identify people with mental illness and co-occurring substance use disorders?<br><i>Please describe: Jail assessments and TASC assessments</i>                                     | X   |    |
| 14   | Does your community use criminogenic risk assessment tools among the justice involved individuals with mental illness?<br><i>Please describe: OYAS and ORAS</i>  | X   |    |
| 15   | Have re-entry services been instituted to help people returning to their communities from jail or prison?<br><i>Please describe: Community Transition Program</i>  | X   |    |
| 16   | To be successful, what aspects of each agency's culture do the other agencies need to be sensitive? Cultures in Preble can be diverse and we need to respect that.   | X   |    |
| 17   | Do you have examples, other than what is already listed in this questionnaire, of successful collaboration between criminal justice and mental health?<br><i>Please describe:</i>  | X   |    |
| 18   | What would you list as your community's strengths? Collaboration, relationships, teamwork, joint funding   |     |    |
| 19   | What would you list as your community's biggest challenge at this time?<br>Housing and transportation  |     |    |

## COVID-19 ADDENDUM

To help us tailor our technical assistance to best meet your needs, we want to learn about your community's response to the COVID-19 pandemic and how that might relate to Sequential Intercept Mapping. Please respond to the following questions regarding the impact of COVID-19 on your community.

|    |   | Yes | No |
|----|---|-----|----|
| 21 | Has the Covid-19 pandemic affected any planning or implementation activities related to Sequential Intercept Mapping? If yes, please explain.   |     | X  |
| 22 | In response to the COVID-19 pandemic, have there been any new responses or changes in your approach to meeting the needs of people with mental illness and co-occurring substance use disorders in the criminal justice system? Please include impacts to law enforcement, jail, court, probation and/or reentry processes. |     | X  |
| 23 | Has the COVID-19 pandemic impacted community-based services, practices or policies in any way? If yes, please explain the nature of the changes. More opportunity for virtual appointments. This is helpful to those in need of services who lack transportation.   | X   |    |
| 24 | What impact, if any, has the COVID-19 pandemic had on people living with mental illness and co-occurring substance use disorders who are involved in the criminal justice system?   |     | X  |

## Evidenced Based Practices Check List for Communities

*Please check each evidenced based practice that has been implemented in your community*

|  |   |
|--|---|
| Assertive Community Treatment (ACT)  |   |
| Clozapine Prescribers  |   |
| Cognitive Enhancement Therapy (CET)  |   |
| Cognitive Behavioral Therapy (CBT)<br><b>Name Specific Practices:</b> TF-CBT, CBT      | X |
| Cognitive Behavioral Therapy for Psychosis (CBT-P)                                     |   |
| Dialectical Behavior Therapy (DBT)   | X |
| Eye Movement Desensitization and Reprocessing (EMDR)                                   | X |
| FIRST Coordinated Specialty Care for First Episode Psychosis                           |   |
| Medication Assisted Treatment (MAT)<br><b>Specify Which Medications Are Available:</b> | X |
| Mental Health First Aid  | X |
| Motivational Interviewing  | X |
| Peer support specialists   | X |
| Whole Health Action Management (WHAM)  |   |
| Other: TASC, QRT, SAPP, MSA, QPR   |   |

## Crisis Response Continuum Check List for Communities

*Please answer/check each crisis response that is available in your community*

|  |   |
|--|---|
| What crisis response continuum services are available within your county?<br>Agency/location:<br>Hours/Limitations/Comments: |   |
| Hotline/24-hour call center (not 911)  | X |
| Crisis center (hub/access point, drop-off, pre-hospitalization screening)  |   |
| Mobile crisis  | X |
| Crisis residential services  |   |
| o Crisis stabilization   | X |
| o 23-hour observation  |   |
| o Crisis residential   | X |
| o Peer respite/sobering support  | X |
| Hospitals (psychiatric and medical) and emergency rooms  | X |
